SmartWerk Core Features (v2.1+)

SmartWerk is a modern digital assistant for freelancers in the Netherlands. Below are the core features available in version 2.0+

- Generate PDF invoices with KvK & BTW

- Track VAT (BTW) deadlines and reminders

- Store receipts & expenses (CSV / photo)

- 30-day starter plan (with GPT prompts)

- Multilingual (EN/NL/UA), mobile friendly

- ROI calculator: how much you save

- AI assistant: clear explanations in Dutch

- Offline-ready: use as PWA, no login

- Compatible with iPhone, Android, PC

SmartWerk vs Other Platforms

SmartWerk vs Others:

- SmartWerk: Local Dutch focus, AI replies, instant use (PDF/PWA), no login needed

- Rompslomp: Full bookkeeping app, complex interface, monthly fee

- MoneyMonk: Focused on traditional finance, limited AI

- e-Boekhouden: Great for accountants, less for freelancers

SmartWerk Vision 2030

SmartWerk Vision 2030:

- Build the most intuitive AI assistant for Dutch freelancers

- Remove paperwork anxiety with clear, human-style automation

- Support 10+ languages, visual finance tools, and daily AI recommendations

- Create a full mobile app + PWA that people use every day
